Subject: Planning Application 14/17/0033

Dear Sir/Madam

I wish to register my objections to the proposed planning of further development at Creech St Michael . I believe the villages infrastructure is inadequate to accommodate the significant increase of houses as proposed in this application.

The current developments along the A38 corridor is already causing a significant traffic problem with a noticeable increase of vehicles traveling through the village.
Further housing development at this location can only make the current situation worse.

I also strongly object to the idea of building houses on the villages side of the M5 motorway as this will destroy the character of the village.

Yours sincerely

David Quartly
