9<sup>th</sup> of November 2017*

*To Mrs F Wadsley  
Deane house  
Belvedere Road,  
Taunton TA1 1HE*

*To the Planning Department*

*Planning application Creech St Michael Gladman 14/17/0033*

*I feel very strongly that if planning application was approved we would lose the natural barrier between the motorway and village which is so important to maintain both for the village community and wildlife.*

*The roads in the village are narrow overcrowded with Lorries, vans and cars using it as a short cut there are many near accidents with residents of all ages having difficulty in crossing the roads especially at peak times.*

*I have lived in Creech since 1982 and belong to several local organisations where we encourage new members of the community to join village activities.*

*The proposed housing would convert the village into a dormitory suburb overwhelm the local village atmosphere that we have worked hard to maintain over many years.*

*We recently have had four housing estates built in the village before the TDBC's core strategy was approved and this has put considerable strain on the village and its facilities (the last development has not yet been completed).*

*The low density of the proposed housing makes one very concerned that if it was approved how a developer / builder could be prevented from putting an application to increase the density.*

*If this was approved when it is outside the core strategy how could any other applications be refused?*

*Mrs Ann Thomas*
