**Subject:** Objection to planning ref: 14/17/0033

Having lived in Creech St Michael for nearly 30 years, it breaks my heart to hear of yet another proposed housing development imposing itself on what was once a lovely quiet village.

The village is at breaking point already from all the new houses that have blotted our landscapes. We do not have the infrastructure to support anymore.

The proposed planning application ref;14/17/0033 will be sited on land that is already in a flood risk area, I can't help but feel that adding more houses and tarmac will only increase this risk.

There will be an awful affect on the ecology in this area also, there are a diverse range of animals that frequent this land including foxes and deer.

I really hope that you reject this proposal and any future ones, surely the already planned housing in surrounding areas, and what we have already here in Creech is sufficient enough to meet your quota?!

Please help us to save a piece of this village by refusing to allow this beautiful green area to become more tarmac and throw together houses!

Yours hopefully,

Andrew Follett
