Ref-Planning Application 14/17/0033

I am a newcomer to this area (originally from Kent), but even in my short time here I have seen such change. Areas of precious countryside gone forever.

I know there has to be change at times, but common-sense must prevail.

This area with such narrow roads will not be able to cope with even more cars. We must care for our environment before it is too late.

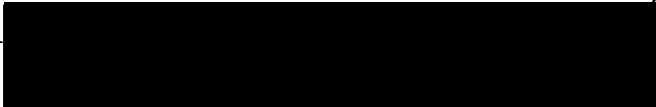

As I previously said I came from

Kent where this build,
build, build happened years
ago and I saw the results -
schools unable to cope, hose pipe
bans every summer due to
lack of water, lack of green
space for our children.

These are just some of my
reasons for writing this
letter, objecting to the planning
application 14/17/0033.

Please consider mine and
all the other objections you
receive thoughtfully, Thankyou

Yours sincerely

B. A. HADDALL
