I wish to register my objection to this planning application for the following reasons: 1. The village infrastructure cannot possibly cope with any more new housing and the related influx of population. 2. The primary school and doctor's surgery are already well over subscribed. 3. There will be even worse congestion on the A38 at Bathpool where there is no alternative route over the river, railway line and canal. 4. The area of land which is being put forward for development actually falls outside of the TDBC Core Strategy. 5. This proposed development would dominate the landscape approaching the village and be completely out of character with the nearby houses as the land is a lot higher than the rest of the village. Please reject this application TDBC and do not make the living conditions even more difficult for the existing villagers.
