Please register my strong objection to the proposed planning application for the following reasons. 1. The proposed site falls outside of the TDBC Core Strategy Policy. 2. Having lived in the village for over 35 years I feel we will lose our identity as a village. The parcel of land is an important green wedge separating the village, M5 and the West Monkton development. It is a habitat for wildlife and I often see deer in these fields. 3, Increased traffic. It is already hazardous walking through the village at certain points, especially at peak times. There is not the infrastructure to support these new homes and increased traffic. 4. The land is higher than existing properties and not only will new houses dominate existing properties and the entrance to the village but run off water from the site would add to drainage and sewerage problems. Properties in the North End area have been flooded several times over the years. I believe that planning consent should be rejected.
