Dear Ms Wadsley,

Re CREECH ST MICHAEL - PLANNING APPLICATION 14/17/0033

I am objecting to the above application for the following reasons:

- More houses towering over those in West View will increase flooding risk in an area that has already suffered enough from flooding. And they will dominate both surrounding homes and the approach to the village
- 200 houses mean the population of the village will increase by 550/600 people and probably another 400+ cars on our narrow roads. The footpaths are extremely narrow or non-existent from the proposed new development to the school (which is over subscribed) and includes virtual footpaths. It is unlikely that the proposed cycle track and footpath across fields to the rear of West view will be agreed.
- The doctor's is always busy and you have to wait weeks for an appointment with your own doctor.
- This is totally outside of TDBC's Core Strategy!
- Yet another green area of the village will disappear. Wildlife will suffer as a result of the removal of well established hedgerows and our children will lose yet another safe area which to explore.
- It will also mean that the village will merge with the new houses just the otherside of the M5. We will no longer be the village in which recent newcomers have chosen to live. We must preserve our village identity!

TDBC, please do not agree to this application!

NAME: B. GREED,
