14 November 2017

Dear Ms Wadsley

PLANNING APPLICATION 14/17/0033 - CREECH ST MICHAEL

It was very disappointing to read the Taunton Deane's Landscape and Biodiversity Officer's report dated 09 November 2017, as there was no mention of the deer which frequent this field as evidenced on the 8th November in K Scriven's photographs. The presence of deer to residents of Creech St Michael is a very important issue and one of the enjoyable aspects of residing in the countryside, and the potential loss of this species features on numerous objection letters.

Yours sincerely

Brenda Brighton
