**PLANNING APPLICATION 14/17/0033  
CREECH ST MICHAEL – GLADMANS**

I am objecting to the Gladman Planning Application because –

1. The land being considered dominates the surrounding area. Water drains down from this field to the stream behind West View. The houses have already suffered from flooding in recent years and the addition of 200 houses, plus roads and the patios and conservatories which home owners will add on will exacerbate the existing problems.
2. Our GP surgery can't cope with the patients it already has on its books, let alone another 250-300!
3. 200 houses means at least another 300+ cars on busy village roads which are narrow and have poor pathways
4. There is only single village shop with little or no parking space and no room to expand.
5. The field has been used for walking for many years. This will be another facility lost to be replaced by unnatural green areas and hard footpaths. Children need fields to explore not hard play equipment that leaves no room for imagination and will quickly become vandalised.
6. This is the last field that separates us from the development on the other side of the motorway.

Please don't agree to this application
