**PLANNING APPLICATION 14/17/0033  
CREECH ST MICHAEL – GLADMANS**

I am objecting to the Gladman Planning Application because -

1. The area being falls outside of the TDBC Core Strategy
2. The proposed link to the pumping station will increase flooding risk to existing properties in the vicinity which are already affected by flooding
3. The GP surgery can't cope with the number of patients already on its book
4. It will mean another 300+ cars on village roads where near accidents happen nearly every day especially on the railway and canal bridges.
5. It is the last bit of green separating us from the M5 and new houses on the otherside.
6. The proposal mentions removing hedgerows for access. These are well established over many years, providing a habitat for wildlife and their loss will be detrimental to the approach to the village
