My address is 24 roys place bathpool Taunton somerset Ta28ax which backs onto the development which has even gone ahead in the full planning of this these units .wouldn't it be obvious to get the planning approval before construction of the roads .which the roller and the excavators are shaking the house which can cause structure damage to the property and could effect structure of the property in the long term. I'm very annoyed that we the residents wasn't consulted before you the council decided to go ahead .

Regard

Alec jackson
