**200 Houses, Creech St Michael
PLANNING 14/17/0033 Gladman Development Ltd**

I have the following objections –

Traffic levels are already causing difficulties as our village road is a rat run between the A38 and the A358.

The proposal if successful will occupy land that is our only piece of land between the village and the M5 motorway.

This development would totally dominate both the landscape and the surrounding houses

The village does not have the infrastructure for a further 200 houses. The school and the doctors surgery are both oversubscribed and there is only one shop.

The roads and pavements are narrow making the walk to and from school dangerous.

The narrow pavements make walking with small children difficult and using wheelchairs or mobility scooters almost impossible

The proposed entry for the site on a blind bend is an accident waiting to happen.

A planning requirement for Garden Status allows green divides between towns\vilages. All new developments must keep the identity of the nearest existing village \town, allowing green space between and the similar type of buildings both in materials and style. If this goes ahead, there will be no divide other than the M5
